

The Tuscarora Council has a proud tradition of Scouting that spans over one hundred years. Thanks to the past Scout Executives, Board Members and Volunteers who thoughtfully crafted and instituted our path forward. As we have entered into our second century of service to the youth in our four-county area, a new long-range plan has been developed to help guide us in making thoughtful, productive and informed decisions that continue to benefit Scouting in our council over the next five years. This road map illustrates strategies chosen to achieve our defined outcomes. We are happy to share this plan and invite everyone to help by extending your talents, time and resources to aid us in continuing as the Best Small Council in America!
